11-01-21

To All Parents and Carers,

Here at Maesyrhandir we feel your child’s welfare and education are our priority. We are all passionate about helping every child to thrive and reach their best potential.

We also know that you are also passionate about your children too.

We are here to help discuss any concerns with you so that they can quickly be resolved.

However just as your children are in school to feel safe and secure, our staff also have every right to feel safe and secure in their professional working environment. They should be treated with the same respect and courtesy they share with yourselves.

In light of these times, with many changes and challenges surrounding COVID-19 and keeping everyone as safe as possible. We are all having to adapt our routines to what feels like ever changing guidelines. But please be assured, this is done to keep as all as safe as possible.

Following a few concerns, we would like to make it clear that although these times are difficult, we will NOT tolerate any member of staff being subjected to aggressive, intimidating or violent behaviour, which makes them feel threatened.

This could be the use of raised voices, comments made on social media, aggressive or personal comments, hand gestures and intimidation of personal space.

We hold the safety of our staff as highly as we do your child’s.

Can we also ask that all parents are courteous and polite to one another on the school site. It is upsetting for children, staff and other parents to hear aggressive and unkind comments and such behaviour is not acceptable.

Please work with us, to keep both students and staff feeling safe and secure. So that everyone can thrive together.

Many thanks.

Maesyrhandir Governors
